WHAT YOUR COLLEAGUES SAY ABOUT THE REVIEW...

“I took the EXCELL Nursing Review and it was more than what I expected. The review course helped me focus on concepts, rationale and decision-making that are vital to passing the exam. I passed it. Thanks a lot!” - T.M.

“Thank you all for helping me pass the NCLEX-LVN exam. Studying alone was not as much fun for me as attending classes with 3 experienced reviewers, each one teaching her own clinical specialty. The exam was very difficult but the review prepared me well. Thanks to you all!” - L.C.

“I did it! I passed my boards and I am now an RN. The reason I passed is due to the EXCELL review. A lot of questions in my exam were well covered in the class. Having a license now is being a step ahead of my dreams. Thank you very much.” - F.R.

“Thanks for imparting to us the knowledge that we are able to use in the boards; the things we learned in the review were for a lifetime. So far it is the best review one would ever encounter.” - G.D.

“Excell has been given a gift of transforming so many lives. You made our dreams of becoming a nurse a reality. I can't believe I passed the NCLEX-RN exam that I had to check the results over and over again. Thank you for all the inspiration and encouragement.” - K.C.

“Excell Review has done it again. The instructors are the best reviewers, direct to the point and very specific. I am going to spread word to my colleagues that if they want to pass the NCLEX-RN, they should enroll in Excell.” - J.F.

“I've been very fortunate to be one of the students of Excell. Their guidance and lively and comprehensive lectures helped me pass my NCLEX-RN. Eight of my friends who attended also passed. Thank you Excell for such an extensive review and for sharing with us your expertise. You have made our paths brighter.” - M.M.

WHY Excell Nursing Review

- In-depth and comprehensive coverage of nursing concepts**
With Excell you will get a free comprehensive, systematic and organized review materials. This saves you time and efforts putting them together on your own. You will be able to answer "**Select all that apply**" questions with ease and confidence. You will find that difficult concepts are made easy and you'll learn the A-Z guide in passing your test.
- Prioritization and Delegation**
These much needed skills in clinical practice are highly tested in NCLEX. They are well-covered from day one and throughout the review course.
- Lab works and lab values** are presented in meaningful ways as they relate to disease conditions simulating NCLEX.
- Drugs in Generic names** are covered in an organized way and discussed in relation to disease conditions where they are prescribed.
- Infection control**, an important component of safety is well-covered and updated based on current standards of practice.
- NCLEX practice questions and self-assessment test** would help you assess your readiness to take and pass your test.
- Test-taking skills and confidence-building strategies** are integrated from day one until the end of the review course.

Together, we will help you achieve your dream of a lifetime-that of becoming an RN, LVN/LPN.
